Read the following

Letter from A.D.Crombie Esquire, C.I.E., I.C.S., Collector of South Kanara, R.O.C.1069-37-B-1 dated 5th March 1937.

Sub: Buildings Government - Collector's Office - Mangalore - Introduction of electric fans -

***

It has been usual in this office to appoint punkah pullers for 3 months every year during the hot weather from March to May for the non-gazetted staff of the office.

2. Consequent on the introduction of the electric lights in this office lately, punkahs have been removed as most of them were in the way of the electric light pendants. Electric fans have been provided for gazetted officers but nothing has been done to replace the punkahs of the non-gazetted staff.

3 The Board of Revenue was requested in this office Pdl.178-36 dated 24-6-1936, to make provision for providing electric fans for the non-gazetted staff of this office in 1937-38, and also for some other fittings for this and the Taluk Office. As the hot weather is approaching, my staff deprived of the benefit of the punkahs to which they were long accustomed represent that they will find it difficult to work without fans in the moist heat of March to May, and I think their representation is reasonable.

4. I request that the electric fans may be sanctioned for the use of my office urgently and necessary sanction given at once so that work may be taken up without further delay. The cost of the work will be paid for in the next official year.

C.E. C.N°. 4755/c From the Board of Rw. N°. E 3902/37.3. d/9.10.37

Electric installation in Kanara - Mangalore Collector's office & allied offices

In October 1935 the Board of Rw. submitted an estimate of Rs. 3310/- for the electrification of the block of buildings containing the collectors and allied offices. It then enclosed a comparative statement which showed that for the six fans and 5 lights which were then proposed, the annual recurring charges would be Rs 525 against the total expenditure of Rs 479 on lights and punkahs that is being incurred at present in these offices. The estimate was approved by the Govt in Go N°. 2537 W d/28.11.35. The Board now submits an estimate for Rs. 3200 for providing 23 additional fans and 5 additional lights to the same buildings but it has not enclosed any comparative statement of recurring charges. It may be asked to submit such a statement to ~~show~~ examine the recurring charges on ordinary lights & punkahs ~~before the first installation was made and the cost after the installation of~~ and the electric lights &

Issued as O.M. No. 4755C/37-1 dt 18.11.38 | pb CF

CW. 503 c. From the Board of Rev. No. E. 3902/37-5 dt 24.1.38 | pp 7 - 9 C i

Please see the comparative statement on p. 9 CF. Of the figures given therein only those under item I relate to the present proposal ×

In the comparative statement on p. 10 of Govt No. 2537 W dt 25.11.35 the total annual expenditure on ordinary punkah pulling was given as Rs 395 and against item 1 (b) of columns ... the present statement it is given as Rs 377 — item I on p 9 CF. The discrepancy is small, and the latest figure may be accepted. The extra cost under the annual recurring charges for all the lights & fans in the collector's office including those already installed works out to Rs 604.

× In 1936 the Collr: seems to have suggested provision of fans for his office staff & for the staff of the Taluk office & Sub Magistrate. The present proposal is only for the Collr's staff (Para 3 CF)

(L)

The Electrical Engineer has certified that the provision of the lights & fans now proposed is the minimum required with reference to floor area etc.
